Congressman Harry Teague announced today that the Congressional Dairy Farmers Caucus will be reforming. Congressman Harry Teague will join two of his Republican colleagues in vice chairing the caucus. The members of the caucus will host a press conference tomorrow, **Wednesday, July 29 at 10:00 AM EST in Room HC-7 of the United States Capitol** to announce the revival of the Caucus, which brings together like-minded Members of Congress who will advocate on behalf of the needs of our nation's dairy farmers. The group came together in response to the struggle of dairy farmers nationwide as milk prices collapse and milk production costs exceed selling price.
